Highlights

Billions of Yen

Financial Results: 2026 Jul.-Sep. (YOY)

Record High	Sales Revenue	324.5	(+12%)	
	Tires	280.9	(+12%)	Sales volumes increase in Japan, U.S., Europe, and Asia
	Sports	34.0	(+19%)	Sales increase of Golf and Tennis products
	Business Profit	19.2	(-5%)	
	Tires	13.3	(-29%)	Impact of rising raw material prices
Record High	Sports	5.3	(+763%)	Contribution of new product sales growth

Financial Results: 2026 Jan.-Sep. (YOY)

Record High	Sales Revenue	944.3	(+10%)
	Tires	815.4	(+10%)
	Sports	100.7	(+8%)
	Business Profit	59.0	(+22%)
	Tires	47.4	(+16%)
	Sports	9.0	(+94%)

2026 Annual Financial Results Forecast

- Sales Revenue (1,270.0 B of yen : +5% YOY) (5% lower than the Aug. 6 forecast) below the Aug. 6 forecast due to rising sales volume
- Operating Profit (87.0 B of yen : -4% YOY) (9% lower than the Aug. 6 forecast) below the Aug. 6 forecast due to raw material
- Full-year tire unit sales are expected to increase 1% YOY (Revised down 1 percentage point from the Aug. 6 forecast)
  - In both Europe and the U.S., we expect to maintain sales growth above industry levels
  - In Japan, sales of DUNLOP SYNCHRO WEATHER are progressing well. Winter tire sales are also expected to increase, and domestic Rep. tire sales are projected to exceed the Aug. 6 forecast.
  - European Rep. tire sales are expected to fall below the Aug. 6 forecast, mainly due to lower-than-expected sales of Dunlop off-take products
  - In North America, sales of DUNLOP own products are expected to increase on the back of an expanded product lineup. FALKEN WILDPEAK sales are also expected to grow, while North American Rep. tire sales are expected to remain in line with the Aug. 6 forecast.

Strong SYNCHRO WEATHER Sales Performance in Japan

By continuing year-round advertising and in-store promotions, we created sales opportunities for all-season tires during the summer season. Unit sales increased significantly compared with the same period of the previous year, and the amount of contribution **profit reached 3.5 times** the previous level. Steady progress is being made toward the annual target of 1 million tires sold.

Japan SYNCHRO WEATHER Sales Volume

Sales Plan: 1 Million Tires

DUNLOP

Jan.-Sep. Results

✓ In the high-inch category (18 inches and above), thanks to excess of sales volume, sales mix was improved and sales volume and profit surpassed the planned target.

✓ Sales in snowy regions continue to exceed the plan.
→ Through two seasons of sales, customers have recognized the product as offering sufficient winter performance.

✓ As the number of retail outlets carrying the product has increased, transaction volume per store has also grown by approximately five times. → In addition to the winter season, the product has become a standard offering and is also being recognized by customers as having sufficient performance as a summer tire.

✓ "The world's first all-season tire*1 to meet performance standards for driving on icy road surfaces."

*1： Based on Dunlop's 2025 research of the world's top 10 tire manufacturers by sales.

Expansion into Europe and North America in FY2027

WINTER MAXX Series + SYNCHRO WEATHER Sales Growth in Japan

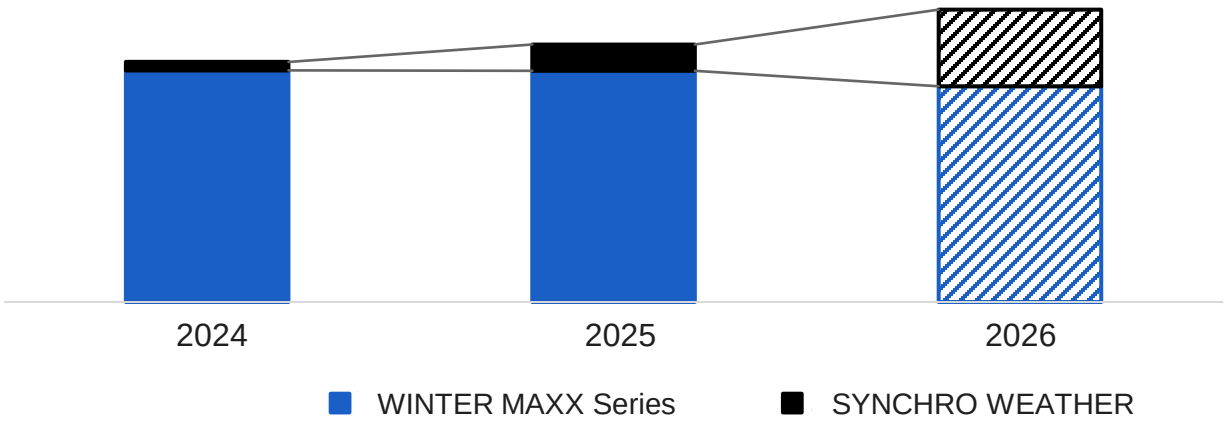

The new **WINTER MAXX ICE Pro** winter tire, **designed with a focus on wet performance**, was launched in August. By addressing diverse customer needs through a unique product lineup, **total sales volumes of the WINTER MAXX series and SYNCHRO WEATHER have increased in line with plan**.

Sales Results

✓ By meeting a wide range of customer needs through our WINTER MAXX winter tire series and SYNCHRO WEATHER all-season tire, total sales volumes of **both product lines have grown in line with plan**.

✓ By clearly positioning both SYNCHRO WEATHER all-season tires and winter tires for different customer needs, both categories are contributing to profitability.

Annual Sales Volume Trend in Japan
（WINTER MAXX Series + SYNCHRO WEATHER）

ICE Pro Sales Initiatives

✓ Test-drive events have been held nationwide for dealers, allowing participants to experience **the outstanding wet-performance capabilities** of ICE Pro and its performance advantages over previous products, resulting in highly positive feedback.

Dealers who responded that they would “actively recommend” ICE Pro to customers: **99%*1**

Participants: 488 (excluding subsidiary personnel)

*1 Based on a survey of drivers who test-drove passenger vehicles equipped with WINTER MAXX ICE Pro on a test course (conducted November 7).

Q: What types of customers would you like to recommend ICE Pro to? (Multiple answers allowed)

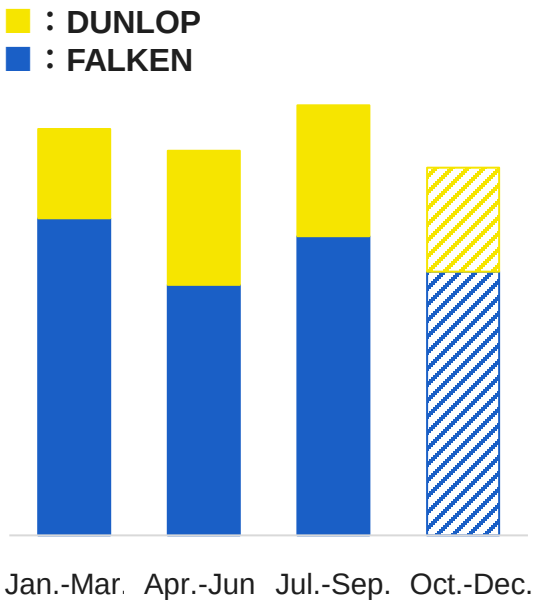

- Drivers who regularly travel on snow-covered or icy roads (64%)
- Drivers concerned about invisible icy surfaces such as black ice (62%)
- Drivers who are not satisfied with the wet-performance
- capabilities of their current winter tires (47%)

Europe: DUNLOP/FALKEN Sales Performance

Unit sales for January-September increased significantly to 131%[*1] of the previous year, as DUNLOP steadily expanded its customer base and further grew winter tire sales.

Europe Sales Volume[*1]
(Replacement Market)

Europe Tire Demand[*1]
(compared to last year)

	Jan.-Sep.
Industry	101%
DUNLOP +FALKEN + SUMITOMO TYRES	131%

*1 Replacement Tires for Passenger Cars Only

DUNLOP

Jan.-Sep. Results

- New customer acquisitions and transaction volume **increased 2.6-fold** compared with the beginning of the year.
- Optimized staffing and strengthened sales and warehouse operations.
- Leveraging sales channels established through FALKEN, **we further expanded sales of highly rated winter tires**.
- Pursuing new business opportunities with automotive dealer networks and major leasing companies.
- “BLUE RESPONSE TG” has **maintained its premium price positioning**.
- DUNLOP off-take product sales for July-September were 62% of plan due to distribution inventory adjustments.

Europe: Factors Behind Lower Volumes and Profitability Deterioration

In addition to lower sales volumes resulting from channel inventory adjustments, profitability deteriorated due to delays in establishing the DUNLOP sales structure. Profitability will be improved through price optimization, greater focus on key sales channels, and expanded sales of in-house DUNLOP products.

Factors Behind Profitability Deterioration

External

- Channel inventory increased due to advance purchases ahead of the AD tariff implementation.
- Demand weakened in key markets, while price competition intensified.
- Raw material costs have risen significantly.

Internal

- Delays occurred in building the sales infrastructure and operating structure.
- The transition of customers and sales channels progressed more slowly than planned.
- Costs increased due to production adjustments associated with temporary inventory reductions.

Key Measures for Profitability Improvement

Sales

- Maintain appropriate pricing levels.
- Optimize pricing by product and sales channel.

Sales

Production

Products

- Concentrate resources on priority customers and channels.
- Implement actions for cost reduction.
- Continue developing competitive in-house DUNLOP products and launch them progressively.

Positive Momentum in Europe's Largest Market

- **Strong confidence in our distribution network among German retailers.** Received the Gold Award in the BRV Service-Award *1.
- **Expanded market share in Germany to approximately 8% (+2 points vs. previous year).**

Established a sales network comparable to those of major competitors.

There remains significant opportunity to expand DUNLOP sales by leveraging the FALKEN distribution network.

*1：BRV Service-Award 2026 =An association representing more than 3,000 tire retailers in Germany. This award was newly established in Germany. The award recognizes outstanding service quality and reliability from the retailer perspective, based on comprehensive evaluations of on-time delivery, logistics processes, business relationships, and sales support.

© Sumitomo Rubber Industries, Ltd. All rights reserved.

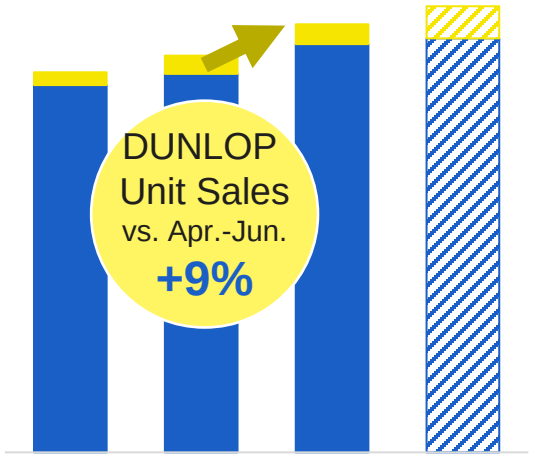

North America: DUNLOP/FALKEN Sales Performance

Despite industry demand softening to 95% of the previous year's level, North American sales **grew 105% year on year, outperforming the market**.

North America Sales Volume*1 (Replacement Market)

North America Tire Demand*1 (compared to last year)

■ : DUNLOP
■ : FALKEN

	Jan.-Sep.	Adjusted for one-off factors in the previous year
Industry	95%	-
DUNLOP +FALKEN	105%	105%
FALKEN (incl. WILDPEAK)	102%	101%
WILDPEAK	105%	104%

*1 Replacement Tires for Passenger Cars Only

DUNLOP

Jan.-Sep. Results

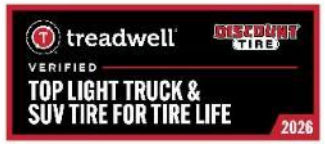

- "BLUE RESPONSE A/S" received an **"Excellent"** rating in performance evaluations conducted by a major online tire retailer.
- The size lineup will be expanded from 44 to 80 sizes to drive sales growth

BLUE RESPONSE A/S

FALKEN

Jan.-Sep. Results

- In real-world performance evaluations conducted by North America's largest retailer, WILDPEAK ranked **No. 2 in durability overall and the highest in the A/T category, as well as No. 4 overall and No. 1 in the R/T category**.

WILDPEAK A/T4W

WILDPEAK R/T01

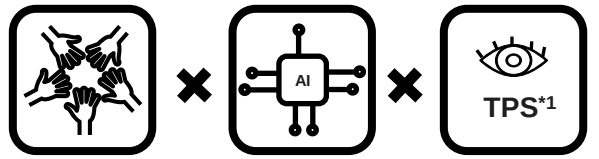

- WILDPEAK sales continued to perform strongly, **and the replacement tire lineup was expanded to a total of 292 sizes**, covering approximately 90% of A/T, M/T, and R/T segment sizes.
- SUN-TITAN SYSTEM has been installed at the Thailand factory and commenced operations two months ahead of schedule. Progress is on track toward a 50% increase in large-diameter tire production capacity.

Progress of Project ARK

Having identified initiatives expected to deliver ¥30.9 billion in benefits against the cumulative ¥30.0 billion target through the end of 2027, we **aim to generate an additional ¥30.0 billion in profit between 2028 and 2030.**

Project ARK: 3 Pillars

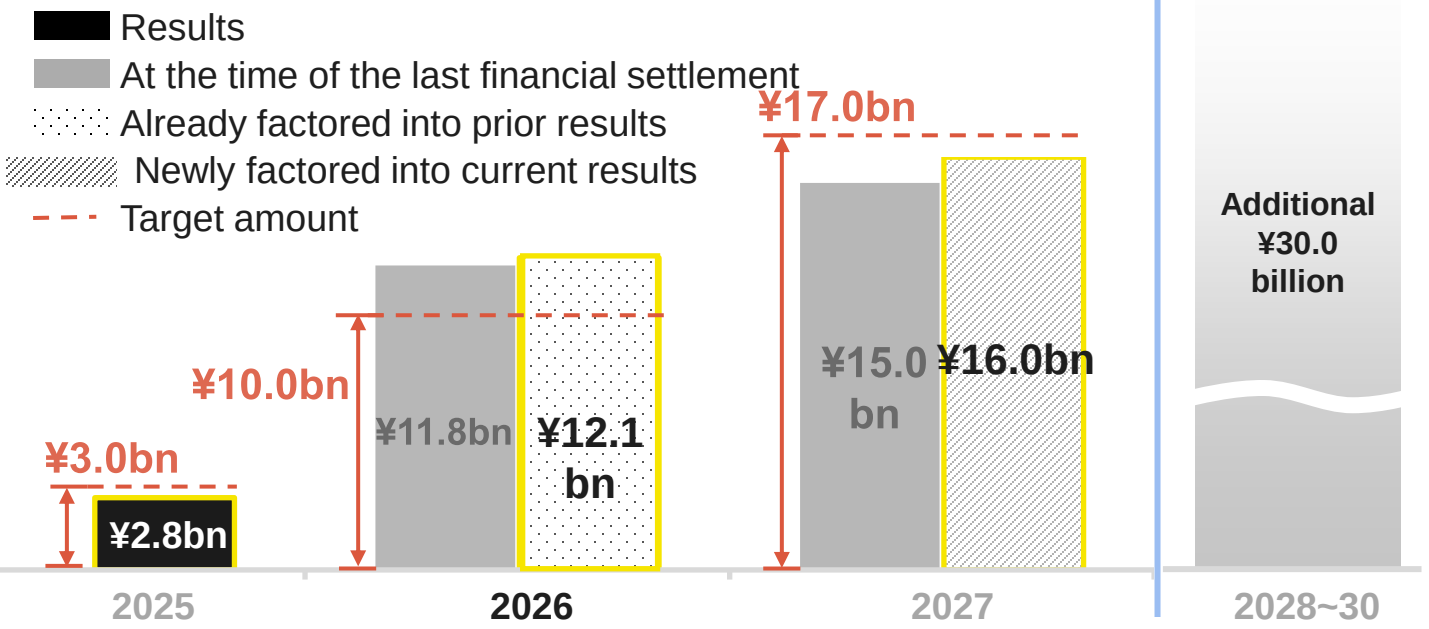

Cross departmental | DX & AI Utilization | Visualization & Elimination of Waste

Benefits Generated by Initiatives

(¥bn)	2025	2026		
		1H	Q3	Q4 Outlook
Tire Direct Cost	+2.1	+2.4	+1.5	+1.9
Tire Fixed Cost	+0.0	+0.1	+0.0	+0.0
Tire Expence	+0.3	+1.5	+1.1	+2.0
Sports	+0.3	+0.3	+0.2	+0.3
Industrial & Others	+0.2	+0.3	+0.2	+0.2
Total	+2.8	+4.6	+3.0	+4.5

+12.1

3-year cumulative total ¥29.5bn → **¥30.9bn** / ¥30.0bn

Key Initiatives / Ideas

- Consolidation and integration of subsidiaries and sites (offices and warehouses) across business divisions.
- Cost reduction initiatives at the Thailand factory, the primary manufacturing site for the U.S. market, through TPS*1.
- Utilization of AI-based tire performance request and shortening development lead times through virtual prototyping.
- Reduction of raw material costs through tire weight reduction (currently being applied to new replacement-market products).

*1 TPS (Toyota Production System)

Europe/North America: SYNCHRO WEATHER Global Expansion Strategy

Utilizing Active Tread Technology, the tire delivers both region-specific performance requirements, such as wet performance in Europe and tread life in North America, as well as snow performance, and is scheduled for launch in the second half of 2027.

1. Market Size & Needs

All-Season / All-Weather Tire Market Size Outlook
（2025→2030）

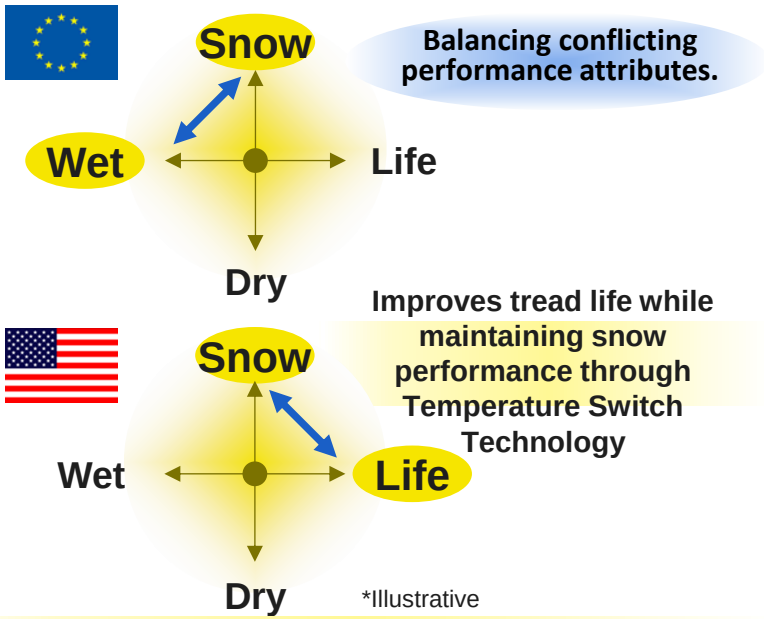

All-weather tire market:
Focusing on 3PMSF-certified snow performance

Wet Performance × Snow Performance
Seeking confidence not only in meeting winter driving regulations, but also on wet roads caused by snow-melting agents.

Tread Life × Snow Performance
Customers want not only strong snow performance, but also longer tire life.

2. Solutions

Delivering performance tailored to regional needs through Active Tread Technology

⇨ Increase awareness and recommendations by demonstrating the technology's value through hands-on experiences for media and sales personnel

3. Value Proposition

SYNCHRO WEATHER

Snow Performance
Provides confident driving on snow-covered roads

Wet Performance
Delivers strong grip on wet roads

Tread Life
Longer-lasting performance that reduces replacement frequency and costs

Convenience
Provides year-round usability, peace of mind and driving enjoyment

Shareholder Returns

We regard shareholder returns as one of our highest management priorities. Accordingly, our basic policy is to ensure a long-term, stable stream of shareholder returns, targeting from 2026 a consolidated dividend payout ratio of 40%+ and a dividend on equity (DOE) of 3%+.

Determination of 2026 Interim Dividend Payment and Forecast of Annual Dividends :

In light of the revision to the annual consolidated financial results forecast for the fiscal year ending December 31, 2026, we have also revised our year-end dividend forecast to 39 yen per share and our annual dividend forecast to 81 yen per share.

（Reference） Trends in Dividend Payout Ratio and DOE (%)

Dividend Payout Ratio	49.1	/	97.8	/	41.2	/	154.6	/	40.2
DOE	3.0	/	1.8	/	2.6	/	2.4	/	3.0

44.4%
3.0%

*DOE = Total dividends / Equity

*DOE prior to fiscal year 2025 is for reference only.

Our Flagship Products

DUNLOP

Next-generation all-season tire utilizing the new ACTIVE TREAD technology that changes the functional traits of rubber depending on road surface conditions.

SYNCHRO WEATHER

DUNLOP

WINTER MAXX's new series. Studless winter tire engineered for ultimate on-ice performance, sacrificing a conflicting element.

DUNLOP

DUNLOP's first rugged terrain tire superior in durability and off-road capabilities, with double sidewall design allowing for customization.

GRANDTREK R/T01

SRIXON®

Srixon ZXi RKT, dedicated to rocket-like ball speed and high linearity.
